

Art and Design

 level
2

Welcome to Art and Design Level 2 at Runshaw College. The course aims to provide students with the opportunity to gain a nationally recognized qualification to enter employment in art and design or to progress onto Level 3 courses in Art and Design or Graphic Design. It will also develop a range of skills and techniques, personal qualities and attitudes essential for success in your future career.

To aid students in reaching their full potential, the college boasts industry standard workshop facilities and all we ask is that students provide their own materials and drawing equipment. Units of study will include areas such as drawing, communication skills and exploring materials, techniques and processes. Whilst completing these units, students gain skills to work towards their very own Final Major project, which is completed at the end of the course. This final project is marked as

Pass, Merit or Distinction and forms the final overall grade for the course.

At Runshaw College, we aim to prepare all of our students for progression in to an Art and Design related course at Further and Higher Education.

To enhance studies at college, students have the opportunity to get involved in trips and visits to complete primary research for projects. This can include trips to places of interest such as Blackpool Zoo and Liverpool World Museum. As well as practical work for this course, students will also complete live briefs during dedicated sessions of work experience, giving them vital skills when working with a client.

Do you want a career in the creative industry? Do you want further progressions on to further study in art and design related courses? If you have answered yes to all these questions then this course is for you!

100%
Pass rate

- Explore a wide range of materials
- Specialist art and design facilities
