

Art and Design

 level
3

Welcome to Art and Design Level 3 at Runshaw College. The course equips students with a diverse range of skills to develop creative ideas within a wide variety of specialist areas. Students are encouraged to explore and experiment with both traditional and mixed medias to create innovative and original work.

After an initial induction period where students experience all areas of art and design (including Fine Art, Textiles, 3D Design, and Photography), they develop skills within their chosen specialisms to create a more in-depth portfolio. It is intended that through bespoke areas of study, that our students develop their own style and artistic personality.

At Runshaw College, we aim to prepare all of our students for progression in to an Art and Design related course at Further and Higher education. Successful progressions from our students include going on to London College of Fashion, Falmouth University and Manchester Metropolitan University.

To aid students in reaching their full potential, the college boasts industry standard workshop facilities and all we ask is that students provide their own materials and drawing equipment. To further enhance studies at the college, our students must participate in work experience.

To enhance studies at college, students have the opportunity to get involved in trips and visits to iconic destinations including Manchester City Art Gallery, Liverpool Tate and London, as well as viewing professional artists' studios. The idea behind our enrichment is to create an authentic feel, and allow students to see first-hand art and design in action.

Do you want a career in the creative industry? Do you want to progress onto university to study an art and design related course? Do you want to develop your own art practice through exploration of a wide range of processes and independent study? If you have answered yes to all questions, then this course is for you!
