BTEC Level 2 Health & Social Care

Health & Social Care Certificate Level 2 at Runshaw College is ideal for anyone wanting to progress into working with those needing extra care, whether that be young or elderly people. Although many students go on to pursue careers in caring, others have gone on to employment in other professions in retail, catering and animal care to name a few.

Most of the teaching staff in the school are former health and care professionals and so are able to bring a wealth of previous experience and authenticity to the classroom.

The course involves studying a variety of units, all linked into social care and health. As well as a wide variety of classroom delivery formats, students can look forward to a number of enrichment activities including:

- Guest speakers
- Trips and visits – including The Trafford Centre and Chill Factor
- Outdoor pursuit activities
- Fundraising activities
- Access to all college enrichment activities

In addition to classroom learning students will need to complete work experience placements. Our dedicated work placement team find and arrange work placements close to where you live. Students can even find their own should they wish. These will be in places such as nurseries, primary schools, special needs schools, older peoples' care homes and special needs units for adults. This is a chance for students to get real life experience and link classroom theory to practice.

If you are interested in a future working with young people and adults as a youth worker, social worker, nurse, midwife or other health professional, this is an ideal course for you. For excellent opportunities to progress within college or in to employment, choose Health & Social Care BTEC Level 2 at Runshaw College.
