

RUNSHAW COLLEGE

POLICY TITLE: ENVIRONMENTAL POLICY		
APPROVED BY: SMT*	AUTHOR: David Sharrock	
APPROVED BY: Governors**		
POLICY OWNER: David Sharrock	POSITION: Director of Facilities	VERSION: 6
LAST UP-DATED: August 2019* October 2019 **	REVIEW DATE: November 2022	

This policy outlines the commitment of Runshaw College in relation to its impacts on the environment and its responsibility to sustainability.

- The College will provide the resources, from the Senior Management Team to operational staff required to manage and systematically reduce our environmental impacts.
- The College is committed to understanding and managing environmental, social and economic impacts.
- The College has identified that it has a responsibility to its Learners, Staff, Suppliers and Local Community around increasing awareness of their environmental impacts. The College is committed to improving this awareness.
- The College will ensure that all our activities meet relevant legislative requirements. Where no regulations exist, we will endeavour to set our own appropriate standards, monitoring their effectiveness on a regular basis.
- The College will identify key activities that have an environmental and sustainability impact, setting objectives and targets against these. These will be reviewed on regular basis to ensure their effectiveness and to drive continuous improvement forward at the College.
- The College is committed to continual improvement in the environmental and sustainability performance of its operations and activities. The college will develop programmes to minimise resource use and optimise efficiency in all activities.

Note: This Environmental Policy should be read in conjunction with the College's other policies, procedures, risk assessments, guidelines and any code of practice issued by individual Schools or Support Services. Many of these are available via the Runshaw Intranet.
